Annex A – ISCC Requirement Areas

ISCC certification audits are carried out by ISCC-cooperating certification bodies.

Clause / Ref.	Title / Requirement
ISCC EU / ISCC PLUS – requirement areas	
ISCC EU 201	System basics
ISCC EU 202	Sustainability requirements (land-related criteria)
ISCC EU 203	Traceability and chain of custody (mass balance)
ISCC EU 204	Risk management
ISCC EU 205	Greenhouse gas emissions – calculation methodology, actual and default values
RED	GHG saving against the fossil fuel comparator (RED II / RED III)
ISCC	Proofs of sustainability and sustainability declarations
ISCC	Emission factors, input data and allocation for each batch
ISCC PLUS	ISCC PLUS requirements (where applicable)

Annex B – Finding Types and Categories

Term	Meaning
CAR	Corrective Action Request: a misstatement or non-conformity that must be corrected and closed before a positive conclusion, opinion, certificate or claim can be issued.
CR	Clarification Request: information is insufficient or unclear to decide whether a requirement is met; the client must provide clarification or evidence.
FAR	Forward Action Request: an issue to be addressed and checked in the next period; it does not prevent the current conclusion.
GHG value misstatement	Actual or default GHG values or the saving calculation differ from the evidence.
Sustainability / traceability non-conformity	Land criteria, mass balance or chain-of-custody requirements are not met.
Evidence gap	Proofs of sustainability, input data or records are missing.
Critical	Finding that alone makes the reported information materially wrong or prevents a conclusion; immediate correction required.
Major	Systematic or significant failure that could lead to a material error or invalid claim if not corrected.
Minor	Isolated lapse not likely to cause a material error or invalid claim on its own.
Concern	Observation or opportunity for improvement; no action is mandatory.

Severity categories are suggested definitions aligned with MDSSPL procedures. Clause titles are summarized for reference; refer to the licensed standards and current regulatory texts for full requirements.
