Annex B – Finding Types and Categories

Term	Meaning
CAR	Corrective Action Request: a misstatement or non-conformity that must be corrected and closed before a positive conclusion, opinion, certificate or claim can be issued.
CR	Clarification Request: information is insufficient or unclear to decide whether a requirement is met; the client must provide clarification or evidence.
FAR	Forward Action Request: an issue to be addressed and checked in the next period; it does not prevent the current conclusion.
Parameter not met	The parameter requirement for the target level is not met.
Parameter partly met	The requirement is partly met or not consistently applied.
Evidence gap	Records or evidence for the parameter are missing.
Critical	Finding that alone makes the reported information materially wrong or prevents a conclusion; immediate correction required.
Major	Systematic or significant failure that could lead to a material error or invalid claim if not corrected.
Minor	Isolated lapse not likely to cause a material error or invalid claim on its own.
Concern	Observation or opportunity for improvement; no action is mandatory.

Severity categories are suggested definitions aligned with MDSSPL procedures. Clause titles are summarized for reference; refer to the licensed standards and current regulatory texts for full requirements.
